TEN TO STEEL

Troops between Tien-Tsin and Peking, and probably 50,000 in and around Peking.

This expedition probably will be compelled to return like Admiral Seymour's. Besides, the Chinese government may lose the power to prompt the legations any longer when the news that a foreign army is advancing becomes known.

The release of the ministers could have been secured by Li Hung Chang if the powers had consented to negotiate through him. But the ministers refuse to leave Peking, because, while there the Chinese government is responsible for them.

The failure to agree upon a commander-in-chief causes consternation. Legations are critically observed. "When the legations begin to fight each other the Boxers will have to be called in to restore peace."

It's a SORRY SPECTACLE.

LA. P. DAY REPORT.

CHIEF FOO, July 24, via Shanghai, Aug. 2.—(By Asiatic Cable, Copyright, 1900.) The latest reports from Peking were brought by disaffected officers to the Chinese legation. They are considered reliable. The officers left Peking July 15. They say anarchy had reigned in Peking for months and the streets ran blood. The Chinese are fighting among themselves. Jung Li, commander-in-chief of the Chinese forces, and Prince Ching espoused the cause of the foreigners and endeavored with the part of the army loyal to them to expel the Boxers. Later, with the majority of the imperial troops, under anti-foreign leaders, Prince Tuan and Gen. Tung Fu Shiang were victorious and Jung Li and Prince Ching, with their followers, were prisoners in their hands. The legation's Chinese reports left Peking.

Prince Tuan and Gen. Tung Fu Shiang appear to control the government, according to the officers, and issued edicts, printed in the Gazette, exhorting the Chinese to kill the foreigners and to expel the Boxers. One officer says that there are 10,000 troops in Peking, including Tung's army, and that the Boxers are burning and looting the streets within a mile of the legations. The foreign troops, he says, have abandoned the Chienmen gate. Their ammunition appeared to be failing and they were using their rifles only for show.

The officers said that every foreigner is being killed. The reports state that the American and English troops engaged Gen. Ma in a night battle, July 16. The reports from Chinese sources say that all the legation's forces were killed. Chinamen caught a messenger who was trying to leave the legation July 16, with the following message: "To any foreign commander: Make all haste if you intend to save your life. We can hold out but a few days."

ARE HELD AS HOSTAGES.

SHANGHAI, Aug. 2.—(By Asiatic Cable, Copyright, 1900.) Public opinion and the foreign press at the treaty ports are alarmed at the possibility that the Chinese would prevail upon the powers to consent to the establishment of a government in Peking without inflicting punishment on the Chinese government's crime. Officials, persons engaged in commercial pursuits and missionaries of all nationalities are remarkably united. They believe Peking should be destroyed as an object lesson and that if the dynasty is continued, it should be forced to establish the capital at some accessible city, the Americans suggesting Hankow. This is considered important, as the Chinese always believed that the Chinese defeated the powers in 1900, because the capital remained intact. It is also thought that guarantees to prevent Chinese troops from entering the treaty ports should be demanded and that China should be compelled, publicly and definitely, to renounce the fiction that the legation's ministers are representatives of tributary powers. There is a strong demand for usual punishment and the destruction of the King's tomb. The American and English missionaries advocate a program of reformation.

All foreigners believe that the Chinese government is making a mistake and is trying to call off its troops after the downfall of Tien-Tsin and the receipt of reinforcements. No powers are sending armies to China. A German legation telegram saying that the bombardment of Tien-Tsin ceased July 17 supports this theory. The foreigners think that the ministers who suffered should be executed for the effect it would have on the populace.

An intensely bitter feeling prevails against Li Hung Chang. The papers of the legation at Hongkong and Shanghai and call him the most corrupt anti-foreigner in China and express the belief that he proposes to save China from the penalty of her acts by embroiling the powers.

The destruction of foreign property continues. United States Consul Fowler estimates that the loss to the American missions amount to \$150,000. The trade losses through the suspension of trade are incalculable. Chinese bring many stories of horrible outrages upon natives, tortured or compelled to renounce their religion. The Chinese are being forced to accept Christianity. A cable is being laid between Chefoo and Taku. The land line between Chefoo and Taku is being operated by Chinese, and is insufficient. The line is overworked with water and business to be handled. Messages of the line are public property. There should be a cable between the two and Shanghai as managed as to give satisfactory service.

GERMAN MINISTERS WELL.

CHEFOO, Aug. 2, via Shanghai, Aug. 2.—(By Asiatic Cable, Copyright, 1900.) A note from the Tien-Tsin legation, dated July 31, reporting that the ministers at the German legation and others were well and that their relations with the government were friendly. They were conferring the note, with a view of arranging measures to protect the ministers to Tien-Tsin.

LAST NUMBER SLAIN.

CHATTFIELD (Miss.), Aug. 2.—Mrs. George Mayes has received a letter, dated June 18, from her father, Dr. Hunter Corbett, a missionary in Chefoo, in which he says:

"At 6 o'clock a note came from Dr. Colman, the father of Dr. Colman at Peking, saying that he and his wife and daughter, Mrs. Clifford, of Tien-Tsin, were in the harbor, returning to the United States. I started at once to see them. On Saturday the Colmans came on a military train to Taku, where they went on board a steamer. There they witnessed the bombardment of the Taku forts. The terrific bombardment continued for five hours. The Japanese attacked the forts and killed themselves by bravery and skill. A foreigner who visited the forts after they were captured says the sight was appalling. The vast number of Chinese slain was an indescribable. The Russians fired into a vast crowd of Boxers on the shore. No one could tell how many were slain. At present there is no immediate

Five furlongs: Rowen won, Kid Cox second, Marotha third; time 1:09.
Six furlongs: Midnight Chimes won, Christopher second, Tinge third; time 1:14.

ONE MILE RACE.
HEDRICK (Ind.), Aug. 3.—The closing day of the Hedrick mile-track meeting was rather disappointing from a racing standpoint in the 1:40 trotting and 1:27 pacing, but the 2:10 trotting proved to be a bottle royal between Anselma and Phoebe Oswald.
Trotting, 2:40 class, purse \$1500: Gamlin won, Idena second, Baron Mont third; best time 2:11.
Pacing, 2:30 class, purse \$1000: Tripoli Girl won, Joe Wheeler second, Fred the X third; best time 2:11.
Trotting, 2:30 class, purse \$1000: Anselma won, Phoebe Oswald second, Large third; time 2:12.

BETTER SPORT AT WINDSOR.
DETROIT, Aug. 3.—The racing at Windsor today was greatly improved. The mile race was the feature of the day. Pink Coat won, Imp. Mint second, Honey Boy third; time 1:59.
Five furlongs: Fair Deceiver won, Jim May second, Aubrey third; time 1:14.
Mile and an eighth: King Elkwood won, Tony Hong second, Bentley B third; time 1:54.
Mile and an eighth: Clara Meade won, Tom Gaiety second, Vincennes third; time 1:54.

KEEF BOYS' SUCCESS.
CONTINUE TO RIDE WINNERS.
LONDON, Aug. 3.—(By Atlantic City.) At Goodwood today the American jockeys, J. and L. Keef, continued their successes. The Chesterfield cup, in which L. Keef had the mount, was won by J. Keef. Lord Wolverton's horse, ridden by J. Keef, won the Chesterfield Stakes of 100 sovereigns each and 100 sovereigns added.

MINES AND MINING.
Statement That Does Injustice to the Rand District.

The Mascot's Mill—Lower California
Sales—Welding of Copper.

A statement was telegraphed some days ago from Sacramento in respect to matters in the Rand mining district, Southern California, and the statement was misinterpreted to the disadvantage of the district. The statement was made in conjunction with the claim of the Randburg Railway Company for a reduction in the assessed value for taxation purposes of the company's road, and other property belonging to it. The company made a "poor mouth" statement in effect, that there was only one mine being worked in the Rand district, and that as a consequence the business of the railroad was nearly very small.

ALABAMA QUARANTINE.
PENNACOLA (Fla.), Aug. 3.—Information has been received that points in Alabama have been quarantined against Tampa. Florida is in a yellow fever, said to exist there, and that the Alabama State Health Officers had put an inspector at Pensacola to inspect all trains. The city health officers will meet every train here.

OFFICIAL CONFIRMATION.
WASHINGTON, Aug. 3.—Surgeon-General Wyman of the Marine Hospital Service, received a dispatch from Surgeon J. B. White, dated at Tampa, Fla., yesterday, confirming the reports of yellow fever in Millaroba county, Florida. Surgeon White has left for the scene of the outbreak accompanied by the State Health Officer.

CONSUMPTION CURE.
NEW YORK, Aug. 3.—(Exclusive Dispatch.) That cases of consumption of the most serious character may be positively cured by "electrical oscillation," was a new principle evolved by Nicola Tesla, is the positive declaration of Dr. C. C. Carroll of this city. To bear out his statement, Dr. Carroll has some remarkable results to show. He has had an interesting clinic, and had several patients present who had been treated by the new method. One is a physician, Dr. E. H. Hiff, himself a specialist in lung diseases of Newark, N. J. Three weeks ago, it is claimed, he was dying of tuberculosis. Today he is attending to his practice. Another is Rev. J. W. Switzer, pastor of the Baptist tabernacle in Harrison, N. J. He, too, has been a victim of tuberculosis. Dr. Hiff contracted the disease from a patient, a year ago.

MILL FOR THE MASCO.
J. Irving Crowell of Los Angeles, who with other parties owns a group of gold properties at Crowell & Cook's Camp in the Argus range of mountains, north of Johannesburg, is going to put a ten-stamp mill at Yuma, Ariz., to treat a portion of their properties. The ore of this group have been pretty thoroughly tested both in the matter of extent and richness, and enough ore is now blocked out to equal the completion and in operation about the end of the present month.

LOWER CALIFORNIA.
The San Diego Union reports that I. I. Irwin of San Diego has purchased the properties of the Republica and Fortuna mining companies in Lower California. The Republica mine, as the Union states, was owned by Felix Bros., and had been under a loan to the Republica Mining Company for about a year under an agreement whereby the company paid \$100,000 in interest, but finally the company lapsed in its payments, and the mine was about to revert to the original owners when Mr. Irwin assumed the obligations and took the mine. The Fortuna mine becomes his property in something the same way, though the mortgage on this property was to Mr. Irwin himself.

WELDING OF COPPER.
Charles E. Walt, professor of chemistry at the University of Southern California, gives the results of some tests he made in welding copper according to the "Leche process." It is of interest to note that Professor Walt says the process is essentially a method of treating the copper, after which it can be welded to itself, or to iron or steel, similarly, and as simply as iron is welded to iron in the blast-furnace forges. He states that the process is not one of electrical welding or brazing, but is a simple process, and is simply welding with heat and flux, as iron is welded.

SANTA RITA, NEW MEXICO.
In an account of the new concentration plant of the Santa Rita Mining Company, at Santa Rita, N. M., the Silver City Enterprise says the plant is a large body of rich oxide copper ore has been struck in one of the four group of the Magma Mountain Copper Company's mines in the Yuma district, Arizona. The strike was made at a depth of fifty feet, the oxide being usually concentrated near the surface. Assays made of the ore show high values in gold and silver.

THE PUBLIC

EVENTS OF THE DAY.

City Auditor Carson has completed his estimate of the various departments for the current fiscal year, and will file his report with the City Council Monday. There has been a great reduction in the amounts estimated for the various departments.

The recently-elected Board of Freeholders held their first meeting last night and elected temporary officers. The next meeting will be held Tuesday evening at the City Council chamber.

The consideration of the several applications for street railway franchises now before the Board of Public Works has been postponed for three weeks in order that the property owners interested may have an opportunity to present the case in the manner they wish.

The Board of Public Works has recommended that any change be made in the bill-board ordinance, as submitted by H. Gaylord Wilshire, be made in the manner suggested.

Mr. J. J. Wilshire, who was granted a divorce in 1912, has been called to appear in court to show that he should not be considered as a person living with his former wife.

mediate hearing, and by much persuasion got it.

He first made the statement, which surprised some people, that he had never refused to remove a billboard.

When requested to do so, even by a private citizen, provided a good reason was given.

Chairman Blanchard read a protest from Dr. Kurtz, in which the board was asked to remove a billboard.

Wilshire said, in part, that he had never heard of any complaint about it before, and it has been there for several years.

He said that he was not reducing the height of the boards under ten feet. He said that the Council should not grant him the amendment to the ordinance, because he was sure there would be no no objection to it.

Chairman Blanchard plainly told Wilshire that there had been more complaints about the billboards than anything else which the Council has to deal with.

He said that a board at 80 feet high is a disgrace, and that the board at 100 feet is a disgrace.

Mr. Blanchard said, "Besides, what assurance have we that you will comply with our making a board at 100 feet high?"
